PROFILE

Full-stack developer with 4+ years of experience on enterprise, multi-brand/multi-country e-commerce platforms in the fashion/luxury retail sector. Strong skills in Java/Spring Boot, enterprise CMS (Magnolia), SAP Commerce/Hybris integrations, multi-provider payments, technical SEO and observability. Pragmatic, production-oriented approach, with critical and deliberate use of AI tools in the development workflow.

EXPERIENCE

Full Stack Developer · GFT Italia Oct 2022 – Present

IT services / consulting — enterprise fashion/luxury e-commerce group client

Full-stack work on an enterprise, multi-brand (11 brands) and multi-country e-commerce platform for fashion/luxury retail. Checkout, payments, search, CMS, technical SEO, integrations, observability and performance optimization.

RESPONSIBILITIES

- Multi-provider checkout and payments (Apple Pay, PayPal/Braintree, Klarna, Axerve/Fabrick, COD)
- SAP Commerce/Mule integrations, My Account, contact preferences, newsletter
- Magnolia CMS: templates/components/YAML, JCR queries, multi-brand/multi-country multisite
- Technical SEO: XML sitemap, hreflang, sales pages, multi-country routing
- Observability: Splunk APM, MDC, filter chain, tracing, warning/NPE reduction
- Performance: reducing duplicate calls, API gating, conservative refactoring of legacy code

RESULTS

- Reduced duplicate calls on the interests/occupations endpoints, removing dead code
- Backend robustness against Algolia warnings (early return, session handling, NPE prevention)
- End-to-end analysis of the Apple Pay integration (Axerve/Fabrick): merchant validation, tokenization, fallback
- Reworked the filter chain and set the MDC Remote-Host for cleaner logging/tracing

Java 11

Spring Boot 2.5/2.7

Spring Security

OAuth2 / JWT

REST API

Maven

Gradle

Magnolia CMS 6

JCR / SQL2

SAP Commerce / Hybris

FreeMarker

Algolia

Splunk APM

NewRelic

PROJECTS

Data pipeline automation

Personal · Google Apps Script + Gemini API
Personal automation of a data pipeline with LLM integration.

Homelab / virtualization

Personal · Proxmox VE, PowerShell
VM management, passthrough and advanced systems troubleshooting.

Doink!

Academic · APPlichiamoci contest, Camplus · LUA, Android
Mobile game published on the Play Store — GUI design and game physics.

I Maestri del Rinascimento

Academic · Cranio Creations · Java, JavaFX
Digital board game.

SKILLS

FOCUS BY LEVEL

Java / Spring Boot	advanced · 4 yrs
Magnolia CMS	advanced
SAP Commerce / Hybris	intermediate
AWS	basic
Python / FastAPI	basic

EDUCATION

BSc in Computer Engineering Politecnico di Milano · 86/110	2022
Scientific High School Diploma — Liceo A. Avogadro Rome · 82/100	2016

LANGUAGES

Italian — native · **English** — B2

LANGUAGES

Java, JavaScript, SQL, PL/SQL, Groovy, FreeMarker, HTML, LUA, VHDL, Python (learning)

PLATFORMS & TOOLS

Spring Boot, Spring Security, Magnolia CMS, SAP Commerce/Hybris, Algolia, Docker, Kubernetes, AWS, Akamai/CloudFront, Splunk, NewRelic, Maven, Gradle, Git, Jira, IntelliJ IDEA, PowerShell, Salesforce, Webpack
